Identiplier

EID Sheep & Goat Tags

All RapID tags are HDX so have a higher quality reading and are the most popular electronic sheep tag on the market.

Cost of the RapID tags includes printing and must have printing on the tag.

RapID tags are to be in ordered in strips of 20's.

RapID tag colour options are:

Applicator used to apply RapID tags is the RapIDmatic tagger.

RapIDmatic Tagger

Lightweight Sheep & Goat Tags

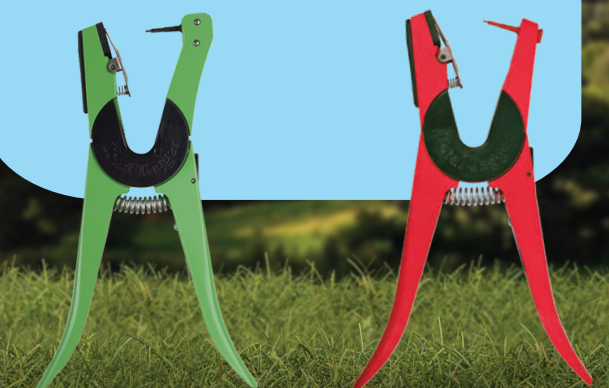

The lightweight EID tag is tamperproof and is ideally suited for sheep and goats. Also can be applied to young animals.

Female tag comes in either yellow or orange and the male tag comes in a range of colours, which can be to suit your management groups.

Lightweight sheep tags can be applied with the identiplier or a universal applicator.
